Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tayan B. Patel on Wednesday, 20 May 2009. The application has been amended as follows:

Amend claim 8 from

----- "the core part and the lock body are harder than the first shell part and the second shell part" -----

To:

----- "the core part and the lock body comprise material having higher hardness than the first shell part and the second shell part" -----

Applicant and Examiner agree that ¶ [0060] and [0061] of the specification as published in Hara; Kei (US 2006/0015078) support this amendment.

Authorization for this examiner's amendment was given in a telephone interview with Tayan B. Patel on Wednesday, 3 June 2009. The application has been amended as follows:

Cancel claims 1-7.

Allowable Claims

2. Claims 8-10 and 13-18 are allowed over the prior art of record.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: the closest prior art of record, Blake; Larry W. et al. (US 4429693), fails to teach or fairly suggest alone or in combination the essential structures of the claimed device, such as a first plate comprising shell and core parts as claimed [claim 8]. Likewise, Blake is silent regarding the hardness of a material used to form plates 10a and 10b (interpreted as first and second plates). These structures are critical since they interface a metallic spring with a comparatively soft plastic through an intermediate core part. That is, with hard core part receives the higher stresses from spring contact while the softer shell part is flexible to allow bending when a user releases the device from its closed state. Motivation is lacking to modify plates 10a and 10b of Blake with facing core and shell parts made of different plastics, since Blake already discloses a closure mechanism comprising latch hook 36b and hook 36a.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adam Marcketich whose telephone number is 571-272-2590. The examiner can normally be reached on 8:00am to 4:00pm Monday through Friday.

6. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tatyana Zalukaeva can be reached on 571-272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
